# Mesoa Bench

MESOA bench is a monolithic, imposing bench designed to attract the eye. Supported by two uniquely shaped blocks of wood spans a long, soft bench. Coated in a distressed leather, Mesoa bench has been designed to look at home in both the grandest of palaces and the most run-down dwellings. The bench takes cues from brutalism, relying on all of its structure from the two large supports, but contains a restrained minimalism too as well as sculptural proportions that invite engagement.

Exclusively for Movimento Gallery.  
Limited Edition of 6+1.
