Artist

CARA \ DAVIDE

CARA \ DAVIDE, design studio based in Milan, is a collaboration between Cara Judd (South Africa) and Davide Gramatica (Italy). Their works are characterised by an ongoing research in material, territory and perception of geometries. They produce their own series of products working closely with artisans in Italy and South Africa. Their collections are represented by galleries in Europe and USA. In the same way, they work closely with brands to produce new collections and have recently been commissioned to design interiors such as retail spaces and exhibition scenographies. Cara and Davide both lecture in the Product Design Department at IED Milan.

Coffee & Side Table

Spina T1.1

Spina is a collection of lacquered tables and seatings.

The lacquered surfaces and consistent rhythm of the planes create a visual play of light, shadow and reflection, adding depth and richness to this already visually graphic collection. The elements of the line are characterized by a dense skeletal base that supports a smaller horizontal plane along its axis.

The thicknesses and proportions of the intersecting vertical planes visually saturate the space underneath its top, creating heaviness as if they were the pedestal for the horizontal plane. There is a visual hierarchy from the heavy plinth to the offset top plane and then to what gets displayed upon its surface.

The notion of stacked objects and planes makes it a sort of altar with a totemic and primitive depiction.

The collection is now composed by 4 elements in 4 lacquered gloss finishing colors.

Made exclusively for Movimento.

Open Edition.

Product Info

Materials

Lacquered MDF or Solid Nut Wood

Country of Origin

Italy

Dimensions

CM	W40	D40	H45
IN	W15.7	D15.7	H17.7

Colors / Finishes / Customizations

Purple/ Coral/ Ocra/ White/ Bespoke colors can be made on request
