Artist

Llot Llov

llo t llov's design is both functional and emotional. Often playful, always visionary, they work conceptually to aesthetically improve our day-to-day world. Their guiding principles are: Content, efficiency, clarity and sustainability. Usefulness is a priority without foregoing complexity.

llo t llov's work is mostly application-oriented. Their products and interior designs are determined by the choice of materials and their specific composition. Suppliers from Germany, the neighbouring states and the use of local structures are de rigueur for the team.

llo t llov works in close contact with its producers and clients and promotes a close relationship to the demanding consumers as well as to the international users and artists. llov llot is deeply rooted in the creative culture of Berlin and profits from a lively urban environment.

Lighting

Fran AS

With their bulky silhouette and rustling fringes, the FRAN lights are reminiscent of a piñata. While their cable becomes the suspension string, their fluttering body is made of high-quality rayon, a viscose fiber based on cellulose. The fringe strands are fitted in layers and create a subtle bob or a bulky statement piece – depending on the amount of material. FRAN is available in four bold block colours (beige, coral, green and black), which work on their own as in monochrome or contrasting combinations as well.

Made exclusively for Movimento.
Open Edition.
