# Studio F

Studio F was founded in 2017 by the work of Federico Boschiazzi and Francesco Lucchetti, self-taught designers united by a passion for craftsmanship and a focus on the concept of sustainability. Today, the studio includes two new partners, Francesco Valfrè and Francesco Miyakawa.

Studio F is not a traditional company but a place where respect for materials, knowledge of processes, and quality finishes uniquely meet the needs of each client.

Desk & Console

# D24\_01

With forms inspired by WWI naval camouflage, the Pieces collection touches on the DNA of Studio F and highlights a bold contrast between contemporary and traditional. Using a combination of mineral patina finish and liquid silver, the collection carries themes of art, disruption and experimentation.

Born from a desire to discover new ways to treat wood and to create tapestries of texture and colour, the Pieces collection contains 5 unique elements. D24\_01 is a two part desk certain to create drama in any space.

Made exclusively for Movimento.  
Open Edition.
