Studio Zero

Studio Zero is a multidisciplinary creative studio offering product design, interiors, exhibitions and art direction founded in Como in 2015 by Anna Seminara and Maria Francesca Cicirelli.

Anna Seminara began her career in the world of restoration and interior design for important private clients, immediately nourishing her passion for the design of furniture and furnishing accessories.

Maria Francesca Cicirelli combines her artistic and product designer training with extensive work in the field of graphics and visuals. The beginning of their collaboration takes advantage of their multifaceted and complementary backgrounds, expanding their skills and expertise in the field of design and creative consulting. Working for prominent companies in the sector, they have expanded their services to

range from large-scale interior and showroom design to small-scale products and furnishing accessories. Their intent is to translate the philosophy and specific objectives of each client into projects and images, ascribing particular importance to attention to detail and the quality of the message. At the same time, they engage in intensive artistic research and personal production activity arising from the essential need to experiment and create with their hands, and also making use of skillfully crafted, extraordinary Italian artisan fabric.

This activity, pursued outside any client commission, is the fullest and deepest expression of the studio's philosophy and conveys its stories and imagery without filters. Studio Zero Edition was born in 2020 for the precise purpose of collecting and presenting all the products and works resulting from this tireless research and the creative encounter between ideas and craftsmanship.

Mirror

Era Large

The Era mirror is a poetic reflection of the passage of time: the sedimentary rock is a witness to the stratification of geological time, a time that almost feels like eternity and that showcases its growth in its imperfect and natural beauty; [by contrast, the mirror expresses the time of the present instant, of the here and now, and at the same time reflects the subjective time of man, witness and spectator himself.

The fragmented shape of the stone intersects with the perfect geometric shape of the mirror, giving us a composition in perfect balance where the moment and eternity condense into an indissoluble embrace.

Exclusively for Movimento Gallery.
