Artist

# Elakform

Studio ELAKFORM rests on a foundation of passion and love for the creation. The company's occurrence comes from a dream about sharing one's creation. The idea is to work with furniture who lies in the CROSSOVER between art and design, to create a feeling and awake curiosity in the user.

The vision is to create a story around the product. That the furniture produces a specific expression of sense as well as an emotional as thoughtful empathy, not only possesses a user function.

ELAKFORM creates character rich, sculptural furniture with a playful and experimental attitude, where the most important is the visual meeting that comes up between the user and the artefact.

Seating

# Beastly Heart Stool

Carved wooden stool from locally sourced elm wood from the landscape of Småland in Sweden. Hand carved by master Swedish woodmaker ELAKFORM. Painted with a durable polyurethane-based colour and finished with an glossy lacquer. The smooth yet textured surface tells the story of both the wood's origin and the creation.

Made exclusively for Movimento.  
Limited Edition.
