Tremendo

Tremendo. is a multidisciplinary creative studio that was created to experiment with spaces and objects. The studio approaches its projects by putting the user at the center of the experience, using architecture, interior design & furniture design as tools.

We understand design as a tool to move towards a better world, being respectful with the story behind each space, each object and each person and developing unique designs that reflect and enhance the personality and way of life of its inhabitants.

The studio explores the limits of what design can do for people, working hand in hand with the best artisans to create designs that promote the sustainability of the industry and enhance the traditional crafts. Designs that are relaxed, joyful and honest.

Spaces and objects to enjoy.

Seating

Mellow Chair

Mellow is an armchair designed to curve around the body, providing a sense of comfort and well-being. It all starts with two soft and rounded shapes, a circle and a cylinder, that are tensioned and curved to embrace you and invite you to rest.

The structure is responsible for unifying the whole piece, surrounding the silhouette and stiffening it.

Mellow is designed and manufactured in Spain by the best artisans.

Made exclusively for Movimento.

Limited Edition.
