Seating

Swell Chair

The Swell series is a work that explores the aesthetic and functional potential of an imperfect state through repetition and combination. The swelled forms, which appear almost alive, combine in various directions to create a beautiful flow of volume, suggesting the possibility of further expansion.

While stimulating curiosity through these interesting forms, the series maintains its functional value as chairs.

The glossy lacquer-treated surfaces visually highlight the delicate volumes and exist as a unique sculpture in space, sometimes as functional furniture.

Exclusively for Movimento Gallery.
Limited Edition of 6+1.
